

Cristian-Valentin Purcea

■ SOFTWARE DEVELOPER

ABOUT

I am an enthusiastic and hardworking software developer, currently studying Computer Science at KEA. Being self-driven and searching for information comes as second nature to me, as I have been working as one of the lead developers on projects for some time now. I hope to find more challenges to help me become an even better software developer.

FRAMEWORKS

Springboot

React JS

Angular JS

LANGUAGE

English

Romanian

French

PROGRAMMING

JavaScript

Java

HTML + CSS

Python

Node JS

EDUCATION

2019 - 2021

■ KEA - Computer Science

Software construction, Technology,
Networking, Software design, IT-organisation

2015 - 2019

■ Colegiul National de Informatica "Matei Basarab"

National college of informatics and programming.
Mathematics, Programming, English, Physics,
Chemistry and French

EXPERIENCE

2020 September - 2021 July

Treecreate, Copenhagen

Software developer

I am one of the main developers working on the company's website, Treecreate.dk. I have developed, from scratch, the core front-end functionality, that allows the users to create and manage designs, which they can then purchase.

2020 December - Present

Scoala-Online, Romania

Co-founder

A Romanian E-Learning Platform. This platform aims to provide the students in Romania with a digital library where they can access all the resources they would need for their studies. I am currently developing the initial stage of the website along with my team from Romania.
